

# m a g n i t u d e ][ sneak preview

Please enjoy a sneak preview presentation in this embedded format. The final 40-minute DVD in glorious 16:9 full-screen HD is available in The MAS Shop, and contains additional .AVI and iPhone/iPod/iPad versions on the disc so that you will be able to upload either to your device of choice.

Watching this movie presented below will (probably) require you to have Apple's Quicktime player browser plugin loaded on your PC if it's not already:

<http://www.apple.com/au/quicktime/player/>

Length of the presentation is a short 5 minutes, and will consume around 38Mb of bandwidth to watch in its entirety. Please try to watch and listen to it through good speakers or headphones in full stereo. All images have been taken by MAS members, past and present, and are generally available on our Interactive/Members Photography page from the menu above.
