

Andrew Milton

Obituary

We regret that our dear friend Andy has passed away at the age of 79 years.

Membership records show that Andy was a retired accountant who joined Macarthur Astronomical Society in 2015. He went on to become a member of the Management Committee following his election as Treasurer at the Annual General Meeting in April 2018.

He was very supportive of the Society and took his financial responsibilities very seriously. He kept the accounts in good order, whilst providing monthly reports to the committee and compiling the Annual Financial Report documents.

Despite recent ill-health, Andy continued as Treasurer. Only a fortnight ago he confirmed his enthusiasm to stand for re-election again next year; and advised that he was planning to start a new life in a retirement village at Park Central.

Sadly, before these two events could transpire, Andy died on 15th December 2023.

Andy's contribution to our Society has been immense and we will all miss his friendship. We wish peace and comfort to his family as they come to terms with their personal tragedy.
