

# Webmaster's Focus

June 2024

## The Members Image Gallery

The members web gallery is one of the most popular pages on the Macastro web site. It's recorded over 2,600 hits in the first five months of 2024.

The beauty of it is that the gallery is directly populated by you, the members, without any admin intervention. You must log on to upload your images but the gallery can be viewed by everyone. You simply upload the photo with a title and short description and bingo! it is immediately added to the gallery, along with other members astro-images.

Once uploaded, your images are automatically stored in your own personal Macastro gallery. As a bonus, your image is then eligible for the *Webmaster's Pick*, where recent member's images are prominently featured on the website's home page.

Astrophotography is a fast growing hobby, so whether you have recently started out or whether you have been doing it for years, let's see your best images on display here on our club website.
